

EO-Summer School 2025

Agenda

Sunday

August 31st, 2025

16:00 - 20:30

Icebreaker

Location will be sent via
Mattermost

Monday

September 1st, 2025

Wageningen International Congress Center (WICC)

Wageningen, The Netherlands

8:30 - 9:00

Registrations

9:00 - 10:30

Plenary introduction, including introduction to the hackathons
Tomislav Hengl

HugoTECH

10:30 - 11:00

Coffee break

HugoTECH

11:00 - 11:30

Building global and national ensemble Land Cover maps using data fusion
Rolf Simoes

HugoTECH

11:30 - 12:00

Monitoring global grassland and pasture areas: An integrated approach based data-fusion
and regional calibration
Leandro Parente

HugoTECH

12:00 - 13:30

Lunch break

EO-Summer School 2025

Agenda

13:30 - 15:00	Introduction of cloud-native vector format: hands-on in Python environment Yu-Feng Ho	HugoTECH
13:30 - 15:00	Land Use and Land Cover Classification with Satellite Image Time Series in R Krzysztof Dyba	Expert Room 6
13:30 - 15:00	Introduction to GRASS GIS as a spatial analysis engine Luis de Souza	Expert Room 7
15:00 - 15:30	Coffee break	
15:30 - 16:30	Hackathon workshops Serkan Isik, Leandro Parente and Tomislav Hengl	HugoTECH
16:30 - 18:00	Research speed dating	W-invite

Tuesday
September 2nd, 2025

9:00 - 9:30	Cloud-based analysis of Earth Observation data using open-source software Edzer Pebesma	HugoTECH
-------------	---	----------

EO-Summer School 2025

Agenda

10:30 - 11:00	Coffee break	
11:00 - 12:30	Discrete Global Grid Systems - Awareness raising about the future of GIS Luis de Souza	HugoTECH
11:00 - 12:00	Passive optical instruments for Earth Observation Rolf Kohlhaas	Expert Room 6&7
12:00 - 13:30	Lunch break	W-Invite
13:30 - 15:00	Raster and vector data cubes in R and Python Edzer Pebesma	HugoTECH
13:30 - 15:00	Crash course on Google Earth Engine API Rof Simoes	Expert Room 6
13:30 - 15:00	Processing large grids and raster algebra using terra package (R) Tomislav Hengl	Expert Room 7
15:00 - 15:30	Coffee break	

EO-Summer School 2025

Agenda

15:30 - 17:00	GRASS GIS automation for Earth Observation with Python, R and Julia Luis de Souza	HugoTECH
15:30 - 17:00	Monitoring EO workflows with precision for better performance and resource utilization Serkan Girgin	Expert Room 6
15:30 - 17:00	Geomorphometry: high-performance computing using GRASS GIS, and WhitboxTools in Python Yu-Feng Ho	Expert Room 7
17:00 - 18:00	Hackathon Consultations	HugoTECH

Wednesday
September 3rd, 2025

9:00 - 10:30	Introduction to the EO Council Wouter van der Wal	HugoTECH
9:30 - 10:00	Introduction to SURF Haili Hu	HugoTECH
10:00 - 10:30	Introduction to NSO Radboud Koop	HugoTECH

EO-Summer School 2025

Agenda

10:30 - 11:00	Coffee break	
11:00 - 12:30	Data use in remote sensing of the atmosphere Sander Houweling	HugoTECH
11:00 - 12:00	What does high resolution mean? Space-based spectrometry for air quality & climate Deborah C. Stein Zweers	Expert Room 6&7
12:00 - 13:30	Lunch break	W-Invite
13:30 - 15:00	Space-time mapping at 30 m resolution based on Landsat ARCO data: hands-on for real case applications (python) Davide Consoli	HugoTECH
13:30 - 15:00	An introduction to Julia Maarten Pronk	Expert Room 6
13:30 - 15:00	Processing PACE data with Python: get a polarized hyperspectral view of the Earth Jeroen Rietjens and Laura van der Schaaf	Expert Room 7

EO-Summer School 2025

Agenda

15:00 - 15:30

Coffee break

15:30 - 18:00

NSO Companies Fair + Networking borrel

W-Invite

Thursday
September 4th, 2025

9:00 - 10:30

Observing earth system dynamics on weather and climate scales
Ad Stoffelen

HugoTECH

10:30 - 11:00

Coffee break

11:00 - 12:30

Discussion panel: How to make EO data open and Decision-Ready? (towards an open EO fediverse)

HugoTECH

EO-Summer School 2025

Agenda

12:30 - 13:30	Lunch break	W-Invite
13:30 - 15:00	Less distorted analyses of satellite imagery using Discrete Global Grid Systems in Julia Daniel Loos	HugoTECH
13:30 - 15:00	Application Packages in the xcube ecosystem Pontus Lurcock	Expert Room 6
13:30 - 15:00	High performance computing with Pyhton/RS-DAT Meiert Grootes	Expert Room 7
15:00 - 15:30	Coffee break	
15:30 - 17:00	AutoML: Automating machine learning applied to areal regression modeling Leandro Parente	HugoTECH
15:30 - 17:00	Cryosphere Tutorial in Python Lu Zhou	Expert Room 6

EO-Summer School 2025

Agenda

15:30 - 17:00	Interactive geomorphometry in Julia Maarten Pronk	Expert Room 7
17:00 - 18:00	Hackathon Consultations	HugoTECH

Friday
September 5th, 2025

9:00 - 10:30	Automatic acquisition and processing of satellite data in R Krzysztof Dyba	HugoTECH
10:30 - 11:00	Coffee break	
11:00 - 12:30	Synthetic Aperture Radar: system specifications and performance trade offs Paco Lopez Dekker	HugoTECH
11:00 - 12:00	The Radiative Transfer Theory Jochen Landgraf	Expert Room 6&7
12:00 - 13:30	Lunch break	W-Invite

EO-Summer School 2025

Agenda

13:30 - 15:00	Greenhouse Gas Remote Sensing using Absorption Spectroscopy: Hands-on experience Jochen Landgraf	HugoTECH
13:30 - 15:00	TBD	Expert Room 6
13:30 - 15:00	TBD	Expert Room 7
15:00 - 15:30	Coffee break	
15:30 - 17:00	TBD	HugoTECH
15:30 - 17:00	TBD	Expert Room 6
15:30 - 17:00	TBD	Expert Room 7
17:00 - 18:00	Closing and announcement of hackathon winners Tomislav Hengl	HugoTECH

EO-Summer School 2025

Agenda

Saturday

September 6th, 2025

09:00 - 16:00

Field Excursion

Details will be
shared
